# MINING PAPER HAS MUCH FROM ALASKA

The current issue of the Mining and Scientific Press contains an illustrated article on the "Skagway-Whitehorse Mining District" by Emil Edward Hurja. The article treats on and sets forth the development that has taken place in the Rainy Hollow, Porcupine, Skagway, Wheaton river, Whitehorse, Atlin, Klunne, and other districts in Alaska and Canada, that are tributary to Skagway and the White Pass railroad.

In its "mining summary" department the same paper contains the following concerning Alaska districts:

Chisana.

The season is over in this district, and about 200 out of 400 will remain through the winter. Miners who recently reached Dawson from Chisana estimate the season's output at between \$210,000 and \$215,000. Most of this went out through McCarthy and Cordova. Hamshaw and associates recovered about \$130,000. He will remain and drill ground this winter. F. Best was the most successful individual miner, followed by C. Whitman, Range and Stone, and A. Taylor. Mail is occasionally sent in by way of McCarthy.

A discovery of copper-gold-silver ore has been made at the head of Snag river by H. A. Lindsay, F. Farnham, and J. O'Hara, according to W. Steinberger, who recently returned to Dawson from Chisana. The district is 25 miles northeast of the latter place, and in the line with the Nabesna copper belt. Sixteen claims have been staked, and include the best ground.

Ketchikan.

(Special Correspondence.)—The effect of the European war is being felt in this community as a number of ventures being financed with European capital have been obliged to suspend operations—Both the Alaska Venture Syndicate and the exploratory work of the Granby Company are in this class. The Jumbo and Sulzer are also closed temporarily and Charles Sulzer is campaigning for the position as Territorial Senator. Rush & Brown are working, the Princeton M. & M. Co. is operating at Dolomi, and the Sea Level Mine is being unwatered for examination, but in general things are much quieter here than earlier in the season.

Ketchikan, October 8.

Valdez.

The President of the Valdez Creek Power & Mines Co., George W. Sias, recently arrived at Cordova, the trip from the mine taking five days. He stated that a new ditch one and a half miles long, 8 feet wide, at the bottom, 15 feet at the top and four feet deep, to carry 3,500 miners' inches per 24 hours, had been constructed.

ed; also a penstock, flume, and one mile of pipe. The clean-up will be a good one, although sluicing was only done for a few weeks. A keystone drill is to be sent in.

# ANOTHER SEWARD MINE VERY RICH

SEWARD, Oct. 15.—One hundred and fifty ounces from three tons of rock is the result of the work of the Ellsworth mill in this city this week. The rock was brought from the Grant Lake property by James R. Hayden, and Mr. Hayden carried around four fine bricks of gold today, and they are now on display in the window of George, the Jeweler. During the week of crushing, Mr. Ellsworth said that the result was showing up far better than had been expected but would not go into details. Today, however, Mr. Hayden was able to show the gold and the astonishing richness of the ore was evident. The ore crushed was picked but there is said to be a large quantity of it.—Seward Gateway.

# COMMERCIAL PAPER SEES GOOD TIMES

NEW YORK, Oct. 24.—Foreign business coming to the United States in the shape of huge orders for army supplies will pay the emergency tax, which it is now necessary to levy to assure the U. S. treasury an ample working balance, many times over. This strict neutrality of this country enforced by President Wilson enables the American manufacturers and laborers to reap the benefits of this opportunity.

As summarized by the New York Journal of Commerce, this is the situation:

Investigation in several leading trade lines shows that within the past month there has been a most encouraging flow of new and extensive orders for such important articles from our American mills as blankets, cotton goods, leather and steel. The war, according to recent indications, has brought to many of our largest corporate manufacturing organizations not a few orders for their products, which will keep them busy in operation for some time at least and in one or two instances establish new records for amounts of materials to fill single orders.

The increasing activity of agents or buying contractors representing foreign countries, according to some trade leaders, has induced a feeling of the greatest confidence for the immediate and near future of our industrial operations, which, in turn, cannot help but exert a beneficial influence toward bringing about general improvement of business in the United States.

# MISS GULICK TO START DANCING CLASS

This morning at 10 o'clock, Miss Francis Gulick commenced her children's dancing class in the Moose Hall. Miss Gulick has had a great deal of experience with children and young people, having trained with a great deal of success the girls of Lehigh-Wahelo Camp Fire every summer for several years in social and folk dancing.

Miss Francis Gulick requests those desiring to join the class to communicate with her at the Charon House, phone 3305.

# ALASKA SYNDICATE MAY BUILD TO COAL FIELDS

After the final passage and signing of the Alaska coal leasing bill and the granting of a few claims to locators we may expect to hear the final announcement that the Alaska Syndicate is to build a branch line of railroad to the Bering river coal fields this early Spring—Cordova Alaskan.

# Keep Alaska out of hands of Political Boss—

The primary and underlying principle of the Non-Partisan movement in this division is fair play, and the right of representation in the Territorial Legislature by all of the factors and elements now working out our political and industrial development.

It is not the off-spring of the mining interests; it is not the child of the fishing interests; it is not the instrument of the mercantile and trading interests; it is not the creation of the professional class; and it is not the agent of the laboring people. But it is the natural result of an earnest, patriotic and characteristically Alaskan desire by people engaged in all of these pursuits to keep the law-making of Alaska clean and free from contamination by any predatory or venal interest. Nor is it designed as a subtle means of worming into the control of federal appointments, or party dictation; for in its conventions and on its tickets are men of all parties and every shade of political opinion. And in matters of national or partisan interest these men are perfectly free to follow their political beliefs without restraint or embarrassment. The only compact the Non-partisan nominees have with one another is that they will, if elected, work shoulder to shoulder in an effort to give a square deal to everybody, and legislate for the good of Alaska and protect the interests of this division.
